

Airport Notifications

Coronavirus Pandemic Alert (As of 28 December (Mon), 00:00am)

The Ministry of Justice, the Ministry of Health, Labor and Welfare and other government agencies are working in conjunction with airport companies to detect and stop the spread of the virus at Komatsu Airport.

When coming to the airport, please observe and cooperate with the following.

【Preventing the Spread of Infection in the Airport】

- Airport staff are being encouraged to wear face masks to prevent the spread of the coronavirus.
- Please keep sufficient space in front and behind when queuing at airline counters and passenger screening checkpoints.
- When at the airport, please wear a face mask even if you have no cold or flu symptoms, and practice normal etiquette if you cough or sneeze.
- Please wash your hands thoroughly to prevent the spread of infection. Disinfectant dispensers have been placed throughout the passenger terminals for your use.

【Request from the Ministry of Land, Infrastructure, Transport and Tourism】

- ① Passengers with a fever or other symptoms are asked to refrain from boarding.
- ② Hand washing and sanitizing as well as basic coughing and sneezing etiquette are fundamental to preventing infection. We ask that everyone observe these practices in the airport, on board aircraft and when using public transport, and also wear a face mask and refrain from conversation.
- ③ Also, in order to reduce the incidence of contact, we urge that remote working and staggered commuting hours be introduced across the board for those who travel to work by public transport.
